

## STAINLESS STEEL PUMP

### SS SERIES

These Stainless Steel pumps are manufactured from Grade 316 stainless steel and are ideal for corrosive or aggressive liquids. The REEFE I-Series ranges three versions: Drainage, Vortex and Non-Clog single vane impellers. Increased reliability means reduced downtime, ultimately saving you time and money.

#### APPLICATIONS

- Chemical plants
- Food processing
- Wineries
- Industrial process
- Trade waste

#### FEATURES & BENEFITS

- Flows up to 18L/sec
- Various impeller types
- High quality stainless steel finish
- Viton O-Ring
- Silicone carbide seal
- Thermal overload protection
- Auto coupling kits available
- Electrical Safety Approval to AS/NZS 60335.2.41

#### CONSTRUCTION

- Triple seal system
- Precision wax castings
- Viton elastomers
- Ingress Protection IP68

#### MODEL TYPES

- SSD - Drainage Pump
- SSV - Vortex Pump
- SSC - Cutter Pump

**IMPORTANT NOTICE:** we do not endorse Cutter Pumps for PUBLIC FACILITIES, RENTAL PROPERTIES, TOWNHOUSE & UNIT COMPLEX applications due to the common incidence of non-sewage articles being placed in the sewer. Use GRINDER Pumps for sewer in all facilities other than owner-occupied domestic situations.
